

# Call for Papers

## Indigenous and Earth System Science Collaborations

Co-Sponsored with NCAR's Rising Voices Center for Indigenous and Earth Sciences, AMS Committee on Spirituality, Multifaith Outreach, and Science (COSMOS), Arctic Slope Regional Corporation (ASRC), & AMS Board on Enterprise Decision Support (BEDS)

Hosts: 18<sup>th</sup> Symposium on Societal Applications, 11<sup>th</sup> Symposium on the Weather, Water, and Climate Enterprise, and 4<sup>th</sup> Symposium on DEI

*We welcome abstracts about research that bring together Indigenous Knowledges and Earth Sciences, and are driven by culturally responsive practices and co-governance approaches. The Indigenous and Earth System Science Collaborations research presentation session will complement a series of events at AMS 2023 in Denver, CO that will showcase collaborative partnerships between Indigenous and Earth sciences that create new, holistic, and relational-based knowledge and inform socially relevant and justice-centered decisions and actions.*

**Submit your abstract at:**
